The **Accessory Rack Passenger Side** from Rover Vans is a reliable and functional solution for campervan owners who need extra space for storage and accessory mounting

Specifications:

- **Material: Aluminum** – thanks to its properties, it is the best material for lightweight yet extremely durable structures.
- **Construction:** made from 50 mm tubing with 3 mm wall thickness.
- **Hinge brackets:** crafted from Strenx steel, which is stronger and more durable compared to regular steel.
- **Premium polished aluminum finish** – ensures a high-quality aesthetic look and makes cleaning easier.
- **Surface:** powder-coated with a special paint resistant to weather conditions and mechanical damage.
- **Versatility:** allows mounting additional accessories from Rover Vans or other manufacturers to enhance travel comfort depending on your needs and destination.
- **Options available:** purchase just the frame or a full set with panels.
- **Compatible with:** Mercedes Sprinter, Fiat Ducato / Ram Promaster, Ford Transit, MAN TGE / VW Crafter
